There were many causes that came together to bring about the tragedy contained in the story of *Murder in the Church*. It was a “perfect storm” of mistakes and their resulting consequences that culminated in the calamity that occurred in this true story.

However, the primary culprits, more than all the others, were a **cold marriage** and **emotional ill-health**. Chris’ books below can be considered complimentary value-added works to *Murder in the Church*. They both offer repair for destructive conditions that not only existed in the story, but also exist in our world in rampancy. They can be acquired for a savings if purchased with *Murder in the Church*.

***I Do, Do You?*** is a mini- book Chris has written identifying golden nuggets of truth from God’s Word about how to warm frigid marriages and keep on fire newlywed marriages.

It contains fourteen points of instruction (four for wives, five for men and five for both) that Chris boldly promises, if they are followed will save marriages.

***Once Broken*** – “A Pathfinder to Emotional Healing and Health”, is another book identifying seven steps to emotional health. This book is Chris’ story of emotional healing and has been the source of deliverance for many people who have followed its scriptural pathway to healing.

It is a masterpiece of insight for people bold enough to ‘go for the gold’ of spiritual and emotional wholeness.
